SKR-1100

## Introducing the new portable lubricators.

The design of the SKR/SGR series has been fully revamped.

### Redesigned & Improved Operability (Common to all models)

**Equipped with gun holder**  
Smooth storage and retrieval of the gun

Large 50L oil  
reservoir capacity

Pail cans\* (16-18kg) can be  
accommodated inside the oil reservoir.  
\*Please remove the top lid of the pail can  
before use.

**Integrated reservoir allowing 2-way filling**  
Direct filling into the cabinet or loading  
as an intact pail can

**Ergonomically designed  
operating handle**  
Features a comfortable grip for  
easy handling and maneuverability

Model 600 用

Model 1100 用

**Air regulator equipped as standard**  
Easy adjustment of discharge pressure and  
discharge volume

existing model (Φ50)

new model (Φ100)

**Equipped with large casters**  
Significantly improved mobility,  
operability, and stability

### 【SKR Series (For Grease)】

**Follower Plate supplied as standard**

The follower plate applicable to grease viscosities up to NLGI No. 1 continues to be included with the two new models. It supports pump suction, enabling grease to be used completely without waste. It also protects the grease surface and prevents contamination from dust and dirt.

### 【SGR Series (For Oil)】

**LBM-GM Grip Meter supplied as standard**

The highly popular 'LBM-GM' grip meter previously included with the conventional SGR-110A5 and the popular standard 'NDN-P' non-drip nozzle are included as standard in the two new models, achieving stable oil supply.
